

WARM MARKET CONTACTING SCRIPT

The contact needs to be brief. (Less than a minute)

And since most people would rather text then call...

Here's an example of my text contact:

Hey Wayne, Jeff here. I just got off the phone with a buddy of mine out of Florida who has a pretty cool project that he's launching in the IoT and 5G space. I don't know if you know anything about this kind of stuff... but it looks really good.

He's looking for a few guys in our area who'd like to make some serious money. Let me know if you'd like to see what he's doing.

And if Wayne replies in a positive manner... then I invite him.

Hey Wayne, glad to see you'd like to know more. You can click below to watch a short video that gives you a quick overview of what they're doing. If it piques your curiosity, you can click the button that will take you another page that has a lot more info.

Feel free to reach out to me if you have any questions. After you get through everything, make sure you join for free and plot your address to see if your location qualifies. If it does, they'll send you a \$500 Travel voucher. This is pretty cool.

Here's the link: <https://iwebatool.net/0041a.php?user=XOXOXO>

And this next step is crucial... within 24 to 48 hours... follow up with everyone based on what action step they take.
